SECOND TERM.

Astronomy (Norton).
 Mineralogy (Dana).
 Botany (Wood).
 Geology (Dana).
 Evidences of Christianity.
 Constitution of the United States.
 Original addresses monthly.

Students upon this course are admitted to any studies of the general course. Various select courses may be pursued; for which, however, no degrees are conferred

FRENCH AND GERMAN.

The instruction in these languages embraces a thorough drill in the Grammar and idioms, the best classic prose and poetry, written translations and daily oral exercises and conversation.

DEGREES.

The degree of *Bachelor of Arts*—A. B.—indicates the completion of the general course.

The degree of *Bachelor of Science*—B. S.—indicates the completion of the Scientific Course.

POST-GRADUATE COURSE.

Mental Philosophy—Hamilton, Kant, Reid, Porter, Aristotle. Logic—Hamilton, Aristotle. Ethics—the Bible, Seneca, Jouffroy. Evidences of Christianity—Lardner Chalmers, Butler. (Two of the authors on each of the above subjects required.) Mathematics—Descriptive Geometry, Howison's Analytic Geometry, Calculus (Diff. Int. and Variations), Analytical Mechanics (Peirce or Bartlett), Astronomy (Bartlett). Natural Science—proficiency in any branch. Classics—Eclogues, Georgics, *Ars Poetica*, Oration of Milo, Isocrates, Livy, Philology, or one modern language mastered.

Graduates of this University, who shall have pursued the above course systematically, for two years, or who have pursued liberal or professional studies regularly for three years—as students of Law, Theology, Medicine, Civil Engineering, or have devoted themselves for that length of time to scientific or literary pursuits, as Editors, Authors, teachers of the higher branches of learning—may submit four theses upon subjects assigned by the Faculty, and, if approved, will be advanced to the degree of *Master of Arts*.

SUGGESTIONS TO OUR PATRONS.

If possible, every student should enter the institution the first day of the Fall Term. All new classes are organized the first of that term, and those entering later

must take their chances in the classes already organized. Minors should never be left entirely to select their boarding house or course of studies; nor should they ever be allowed to open accounts in the stores. The general course of study has great advantages over all special courses.

TUITION FEES PER TERM OF TWENTY WEEKS, IN ADVANCE.

Freshman, Sophomore and Scientific Junior Classes, each.....	\$30
Senior and Classical Junior Classes.....	35
French and German each, extra.....	10
Contingent fee in all classes.....	5
Laboratory fee, for classes in Physical Science.....	2
Library fee.....	1
Boarding, per week, with private families.....	3.50 to 5
Students entering within three weeks of the opening are charged for the full term.	
Total necessary expenses, including books, per term of twenty weeks, \$116 to \$170.	
This does not include expenses for clothing.	

CLUB BOARDING

Is much cheaper, and just as pleasant. Clubs of from six to ten, by renting a small cottage, procuring furniture, hiring a servant, and purchasing supplies, can board themselves comfortably—every item of expense being included—at from ten to twelve dollars each per month. Some have boarded in this way at seven dollars each per month. Should a party of four or five, as a nucleus for such a club, from any village or neighborhood, desire to board in this way, they can have their house secured by addressing A. H. Buchanan.

LIBRARY AND READING ROOM.

The University Library contains over six thousand volumes. The Reading Room is supplied with the leading periodicals in the English language. These are open every afternoon and evening except Sunday. They constitute, under their present admirable arrangement, a new feature in the University, and afford great advantages.

GRADING.

The parent or guardian of each student is furnished with a monthly statement of the standing of his son or ward, signed by the Chancellor of the University. The "grading card" also shows the number of times the student is present and absent, and present without preparation during the month. The number of daily recitations required of each student is three, while many have four.

COLLEGE CODE.

The laws of the University are rigidly enforced, and all embraced in the motto—*Semper Præsens, Semper Paratus.*

PRIZE.

The E. M. Neal Prize is awarded to the best declaimer of the Preparatory School.

ROUTES TO LEBANON.

A daily train from Nashville gives easy connection with all railroads. Several stage lines run from interior towns to Lebanon.

The next term begins September 7, 1874.

SCHOOL OF CIVIL ENGINEERING.

JUNIOR YEAR.

First Term.—Olney's Algebra; Chauvenet's Geometry; Church's Descriptive Geometry; Vose's Road Engineering, Elementary Physics.

Second Term.—Chauvenet's Plane and Spherical Trigonometry; Gillespie's Land Surveying; Church or Davies's Shades, Shadows and Perspective; Howison's Analytic Geometry; Henck's Field Engineering.

SENIOR YEAR.

First Term.—Olney's Calculus; Cox's Weisbach's Mechanics; Gillespie's Higher Surveying and Leveling; Rankine's Civil Engineering; Dana's Geology.

Second Term.—Norton's Astronomy; Theory of Strains in Girders (Stoney, Shreve, Merrill and Vose); Bridge Construction (Working Drawings, Models and Lectures); Machines (Rankine and Auchincloss); Wood's Botany (optional).

Drawing.—Topographical, Geometrical, Mechanical, Isometrical and Architectural, with Shading and Tinting—throughout the course.

Field Work.—Adjustment and use of Surveying Instruments, and extensive practice in Sketching Topography.

Those who complete the entire course will receive the degree of Civil Engineer—C.E.

Tuition for term of five months, in advance, \$50.

A full course of Land Surveying is given for \$50.

The Engineering course may be carried on concurrently with the Regular College Course, by commencing it in the Sophomore or Junior years, in which case the tuition fee is \$25 per session of five months.

Board from \$3.50 to \$5.00 per week. Club boarding from \$2 to \$2.50 per week.

Recitations from 2 to 5 o'clock, P. M.

The next session commences Sept. 7, 1874.

For further information, address Prof. A. H. Buchanan.

LAW SCHOOL.

JUNIOR CLASS.

Caruthers's History of a Law Suit; Stephens's Pleading; Kent's Commentaries; Greenleaf's Evidence, 1st vol.

SENIOR CLASS.

Barton's Suit in Equity; Story's Equity Jurisprudence; Bishop's Criminal Law; Parsons on Contracts.

This course may be completed in ten months. Students may begin the course in September or January.

To enter the Senior Class with a view to graduation, the student must submit to an examination on the books of the Junior Class or their equivalents.

A license to practise and diploma will be granted to all who are graduated.

No previous reading of law or any special literary qualification will be required in order to enter the school.

The common law, applicable in all the States, is taught, not by lectures, but by daily examinations of every student.

Moot courts constitute an important feature. Every student is required to bring suits in the forms adapted to all our courts. Professors sit as Judges, and students act, by turns, as Jurors, Clerk and Sheriff.

The books of each class may be bought in Lebanon for about forty dollars.

There are two sessions. The first term for the years 1874-5 begins 1st Monday in September, and ends January 21st. Second term begins January 25th, and ends June 10th.

EXPENSES.

Boarding in families may be obtained at \$3.50 to 5.00 per week; for 20 weeks \$70 to \$100. Tuition fee per session, \$60; contingent tax, \$5; library tax, \$1; washing, lights and fuel, \$25 to \$35; whole expenses per session, \$161 to \$191.

This does not include clothing or books. Graduates pay a diploma fee of \$5. All graduates are invited to remain another year free of charge.

THEOLOGICAL SCHOOL.

Lectures on Theology, Broadus's Preparation and Delivery of Sermons, Jahns's Biblical Archæology, Mosheim's Ecclesiastical History, Coleman's Ancient Christianity Exemplified, Upham's Mental Philosophy, Butler's Analogy of Natural and Revealed Religion, Paley's Natural Theology, Bloomfield's Greek Testament, Green's Elementary and Large Hebrew Grammars, Gesenius's Hebrew Lexicon, Biblia Hebraica, Lectures on the Evidences of Christianity.

CAMP BLAKE.

This Institution was organized in September, 1863, and has been in successful operation ever since.

TERMS.

1. A contingent fee of \$20 is required to be paid in advance.
2. No one is admitted until he has furnished evidence that he is a candidate for the Ministry, in the care of some Presbytery in the Cumberland Presbyterian Church.
3. A room is furnished with a bunk, chairs and a table. The student furnishes his own wood, washing, lights, bedding and whatever else he may need. Of course no charge is made for board. All eat at the same table, where every appliance is provided.
4. Candidates for the Ministry pay no tuition; but before entering College each one is required to pay \$5 contingent tax.

The whole expenses of boarding in Camp Blake, including both contingent taxes and books, per session, need not exceed \$50, and by very rigid economy may be considerably less.

CONTRIBUTIONS.

Money and provisions for Camp Blake may be sent to Hon. Nathan Green, Lebanon, Tennessee.

BUSINESS COLLEGE AND TELEGRAPH INSTITUTE.

FACULTY.

NATHAN GREEN, A.M., L.B.,
Chancellor.

REV. THOMAS TONEY, A.M.,
Principal of Business College and Telegraph Institute. Also Professor of Commercial Correspondence and Actual Business.

J. D. CUNNINGHAM, M. Acct.,
Professor of the Theory and Practice of Telegraphy.

W. HOWARD SUTTON, M. Acct.,
Professor of the Science of Accounts.

FRANK GOODMAN, M. Acct.,
Professor of Penmanship.

MISS LIZZIE A. SHAUT,
Superintendent of Ladies' Department and Assistant in Telegraphy.

This Department of the University was organized and commenced work on the first of September, 1873. Since that time its prosperity has been almost without a parallel. It now presents to the young and middle-aged of the *entire country* superior advantages for securing a first-class Business Education.

TELEGRAPHY.

We are well prepared to teach Telegraphy; using the best instruments, and having thorough practical operators for teachers. It is taught at this school by sound. The student first memorizes the Alphabet (Morse's system); second, learns to make the letters; third, learns to distinguish them by sound. Then he is placed in a class around a table, where the teacher writes and the students copy, with a pen or pencil. Then each student writes, alternately, for the others. They are allowed a separate instrument for practice *as much as they desire*. As soon as the student can send and receive a dispatch by sound, he is placed at one of our offices on our City Line, where they send and receive "Train Orders," "Prices Current," "Press Reports," etc., etc. In fact, they can learn *everything* here necessary to prepare the student for work on a regular "Air-line Telegraph."

COMMERCIAL DEPARTMENT.

Bookkeeping—By double and single entry, on the latest, most approved and best

plan. The student, on finishing the course of instruction in this College, can, without assistance, open a set of books and keep them correctly.

Commercial Law—In class drill with lectures.

Commercial Arithmetic—In daily class drill, including the "Short Method with Arithmetic," "Lightning Method of Calculation," "Cause, Effect and Cancellation," etc., etc.

Commercial Correspondence—Class drill and lectures.

Commercial Geography—Taught by lectures to those who desire it.

Penmanship—Daily drill without extra charge, to students in either of the above Departments.

Word Method and Test Spelling—Teaching the student, in a short, practical way how to spell words, and how to write them correctly.

Theory and Practice—This department will include every book used in commercial dealings, together with every paper, from the simple "note of hand" to the most complicated "manifest." The language of each will be studied in its place, and the peculiarities fully explained by the teachers.

A large amount of our instruction is *entirely original and practical*, and conducted just as actual business. The student can select any business and study it as a specialty, if he wishes to engage in that kind of business.

SESSIONS.

The Business College and Telegraph Institute will continue open every day in the year, except Sundays. Students can enter either of these departments at any time. Students from the South, who are engaged in business, or those who are attending school, should endeavor to be here by May or June, so as to complete their course of study during the Summer.

Since the opening of the Lebanon sulphur well, this will be an excellent place to spend the Summer, restore the health, learn Telegraphy or take a Business course in the Business College.

EXPENSES.

Tuition in Telegraphy.....	\$ 50 00
Commercial Department.....	50 00
One person taking both courses.....	90 00
Tuition for Ladies in either Department.....	40 00
Library fee.....	1 00

Invariably in advance.

SPECIAL RATES.

All persons who, from any cause, have but one arm or leg; all orphans whose fathers died or were killed in either army, during the late war, or died in good standing in either the Masonic, or I. O. O. F., or any Temperance societies; or orphans of deceased Ministers of any denomination, who enter either department of this school during the months of April, May or June, 1874, will be charged only twenty-five dollars for their scholarship. This is giving twenty-five dollars to each student. This admits both male and female. They must satisfy us that they come under one of the above classes, and must take the scholarship during the time mentioned above. Tuition in this department is paid *but once*. The student is allowed to remain until the course is completed and to review at pleasure.

ASSISTANCE FOR ALL.

We will assist all worthy graduates in obtaining situations, who desire such as-

sistance, free of charge; and our means for securing such positions are quite extensive.

SITUATIONS ARE GUARANTEED

to worthy graduates in Telegraphy, within thirty days from the time they complete the course and graduate, or one half of the tuition will be refunded. Students desiring such assistance must make it known on entering school. They must pay ten dollars to defray the expense of correspondence in securing the situation. The student can take both courses combined upon the same condition. Then one hundred dollars will be charged instead of ninety dollars.

TIME REQUIRED.

To prepare the student in Telegraphy to take charge of an office, or to complete the Commercial course, it usually requires from eight to sixteen weeks. Much will depend upon the ability, previous training and application of the student. Some require longer time, others not so long. The tuition is the same, be the time required long or short.

WILL IT PAY?

Good Telegraph Operators receive from \$50 to \$150 per month, while good Book-keepers receive from \$50 to \$300 per month. These are facts known to all men. It needs no argument to convince the wise.

BOARD

Can be secured, with good families, at from \$3.00 to \$5.00 a week. The student can rent an office and board himself much cheaper. Students, on their arrival at Lebanon, should leave their baggage at the depot, retaining their check, until they report to the Business Manager at the Business College on North Cumberland street, who will assist them in securing a pleasant boarding house near the College.

BOOKS.

Bryant & Stratton's Counting House Book-keeping, Townsend's Commercial Law, and the Cumberland University Business Arithmetic. Students can buy books as cheap in Lebanon as anywhere else. Wait until you come before purchasing, unless you have the above books on hand.

DAILY TRAINS

Run to Nashville from Lebanon and return each day on the T. & P. R. R.

For particulars in regard to either of the above departments, address the Principal, Rev. Thomas Toney, Lebanon, Tenn.
